MICCO Construction Announces New LEED® Accredited Professionals

Pontiac, Michigan—February 27, 2008. . . Duane Bernard and John Claycomb, of MICCO Construction, LLC, recently earned LEED® (Leadership in Energy and Environmental Design) accreditation from the U.S. Green Building Council. A LEED Accredited Professional (LEED AP) can demonstrate a thorough understanding of green building techniques, the LEED Green Building Rating System and the certification process. LEED Accreditation further distinguishes building professionals with the skills necessary to successfully steward projects through the LEED certification process.

As MICCO's senior estimator, Duane brings to his projects more than 26 years of diverse construction experience. Duane's early involvement in pre-construction budget development and cost control allows the project team a smooth transition into the construction phase. His projects include Bloomfield Park, Temple Kol Ami, Wal-Mart Stores, Inc. and the Grosse Pointe Public School System. Duane earned a Bachelor of Science in Architecture from Lawrence Technological University.

Since joining MICCO in 2006, John's involvement in the estimating process has helped identify potential risks and rewards. He has been the estimator for Wayne County Community College Western Campus, Marriott at Centerpointe Pontiac and the Walt Disney World Hilton Hotel. John earned a Bachelor of Science in Civil and Environmental Engineering from Michigan State University.

"MICCO is committed to operational excellence," observed Bob Washer, executive vice president and general manager. "Sustainable building practices are fast becoming the standard in both the private and public sectors. Duane and John are able to provide decision makers with the facts they need to move projects forward, including the economic rational of green building principles."

About MICCO Construction

MICCO Construction, LLC's focus is on both private and public construction projects with total turn-key capabilities, including construction management, general contracting, design/build, program management, and pre-construction services. MICCO Construction, LLC is a division of National Construction Enterprises. The company's corporate headquarters are located at 715 Auburn Road, Pontiac, Michigan.
